Notes to the Reconciliations

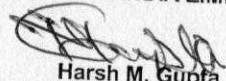

- a) Under Previous GAAP, Stock of Black Tea was valued at the lower of cost and net realisable value. Cost comprised of all cost of purchase/ production of green leaf, cost of conversion and other costs in bringing the Stock to its present location. Under Ind AS, while there is no change in the cost of conversion and other costs, the green leaf imputed in Stock of Black Tea has been taken at fair value at the time of harvest, less cost to sell.
- b) Under Previous GAAP, stock of Green Leaf harvested was not recognised and corresponding production of Black Tea was being adjusted. Under Ind AS, stock of harvested Green leaf is measured and valued at its fair price at the point of harvest less cost to sell and is classified as Stock of Raw Materials.
- c) Under Previous GAAP, biological assets (unharvested Green Leaf on Tea Bushes) was not required to be recognised. Under Ind AS these have been recognised at fair value less cost to sell and change in fair value has been recognised in the Statement of Profit and Loss.
- d) The Company had its own Internally Generated Brand by one of its Division and expenses incurred thereon were capitalised under the head Brand and Trademarks as an Intangible Asset under Previous GAAP. Under Ind AS, these expenses are chargeable to the Statement of Profit and Loss. The effect of derecognition of Brand is given effect on the date of transition to Ind AS.
- e) Under Previous GAAP, Mark to Market Losses on in respect of Foreign Exchange Derivative Contracts were not required to be recognised. However, as a prudent accounting practice adopted by the Company, the exchange losses on the reporting date were provided for as part of Finance Cost. Under Ind AS, all Derivative Contracts are stated at fair value. Accordingly, M2M loss has been provided for as on the reporting date.
- f) Under Previous GAAP, Replanting Subsidy was recognised as Income in the year of receipt and taken in Statement of Profit and Loss. Under Ind AS, such Government Grant is treated as Deferred Income and credited to the Statement of Profit and Loss on Straight Line Basis over the useful life of the Replanted Section(s) for which it was sanctioned.

- g) Under Previous GAAP, investment in Equity instruments were classified as Long Term Investment based on intended holding period and realisability, These were carried at Cost less provision for permanent diminution of value. Under Ind AS, these investments (other than Equity instruments of Associates, Subsidiary and Joint Ventures) are required to be measured at fair value and changes in such fair value routed through Statement of Profit and Loss.
- h) In keeping with the requirement of Ind AS 41, expenses incurred on uprooting, replanting and maintenance of young tea are being capitalised as Capital work-in-progress- Bearer Plants. Bearer Plants, thus being self created assets, interest incurred on the general borrowings attributable to such creation qualify for capitalisation in accordance with Ind AS 23. Under previous GAAP, there was no such capitalisation of this nature was contemplated.
- i) Under Ind AS remeasurements i.e. actuarial gains and losses and the return on plan assets greater/ less than the discount rate are recognised in Other Comprehensive Income instead of Statement of Profit and Loss. Under Previous GAAP, these remeasurements were a charge in the Statement of Profit and Loss.
