- (f) Draft Scheme of Amalgamation (as duly certified by the Management of the Companies);
- (g) Memorandum and Articles of Association of the Companies;

- (h) Other relevant details of the Companies such as its history, past and present activities, future plans and prospects, and other relevant information; and
- (i) Such other information and explanations as required and which have been provided by the Management of the Companies.

4. BASIS OF RECOMMENDATION

4.1. For the purpose of my opinion, I have relied upon the current shareholding of the Companies, the draft Scheme of Amalgamation and other information as provided by the Management of the Companies and their respective advisors and authorized representatives.

4.2. Based on review of the information made available and my discussions with the Management of the Companies, authorized representatives and advisors of the Companies, some of the important factors considered for recommendation are as under:

(a) BMG holds 2,37,63,795 equity shares of Rs. 2 each fully paid up, representing about 64.76% of the total paid up share capital of the Transferee Company and 10,00,000 0.01% Compulsorily Convertible Preference Shares of Rs. 10 each fully paid up in the Transferee Company. I have been given to understand that the Transferor Company does not hold any other business assets / surplus assets / investments and/or any other net liabilities, which are getting transferred pursuant to the Scheme, other than the one disclosed. The management / shareholders of BMG have given an undertaking that the cash / bank balance and liquid investments in the books of BMG immediately prior to the implementation of the Scheme or otherwise will be utilized to meet the costs, fees, charges, expenses (including stamp duty payable, if any) in relation to the Proposed Scheme. Further, in the event that BMG is unable to bear any expenses due to lack of sufficient funds, the shareholders of BMG shall bear such expenses. Hence, no value has been attributed to any other assets or liabilities except investments held in RIL. Hence, RIL shall not bear any expenses, pursuant to the Proposed Scheme and remain value neutral to the current shareholders of RIL and shall not be adversely impacted;

(b) Further, I have been given to understand that the shareholders of BMG shall indemnify and hold harmless RIL for losses, liabilities, costs, charges, expenses (whether or not resulting from third party claims), including those paid or suffered pursuant to any actions, proceedings, claims and

including interest and penalties discharged by RIL but would not have been borne or payable by RIL, in the form and manner as may be agreed amongst RIL and the shareholders of BMG, which may devolve upon RIL during the pendency of the Scheme or post the Scheme. Thus, as a result of the proposed amalgamation, RIL will not bear any loss, liabilities, cost, charges and expenses due to any such disputes or litigations or any other actions of BMG, being the Transferor Company. Further, the Management of the Companies have given an undertaking that the terms of preference shares, equity shareholders of BMG and investments held by BMG shall not be changed during the pendency of the Scheme. In case, the terms of the preference shares held by BMG in RIL are modified, the terms of issue of preference shares, pursuant to the Scheme shall stand modified to that effect and to the end and intent that shareholders of RIL shall not be prejudicially affected on account of any corporate actions or otherwise undertaken by BMG;

- (c) The equity shares and preference shares held by BMG in RIL will be cancelled and extinguished pursuant to the Scheme becoming effective and equal no. of shares with same terms and rights attached thereto (including but not limited to preference shares) in the Transferee Company in proportion to their holding in the Transferor Company shall be issued to the equity shareholders of the Transferor Company as a part of the Scheme. Thus, for every fresh issue of shares by RIL as a part of the Scheme, there is corresponding cancellation of an existing share (equity or preference), as held by BMG;
- (d) Further, there would be no change in the aggregate promoters' shareholding in the Transferee Company and hence, shall not affect the interest of any of the shareholders of the Transferee Company. Accordingly, valuation approaches as indicated in the format as prescribed under Para I(A)(4) of Annexure I of SEBI Circular no. CFD/DIL3/CIR/2017/21 dated March 10, 2017 have not been undertaken as they are not relevant with respect to the Proposed Scheme;
- (e) Upon the Scheme becoming effective, there is no additional consideration being discharged in the form of equity shares or securities or assuming liabilities of the Transferor Company by the Transferee Company. The consideration proposed to be discharged shall be in the form of same no. of shares held by the Transferor

Company in the Transferee Company. The Scheme does not envisage dilution of the holding of any one or more of the shareholders as a result of operation of the Scheme;

- (f) Post giving effect to the Scheme, 2,37,63,795 equity shares of Rs. 2 each fully paid up, representing about 64.76% of the total paid up share capital of the Transferee Company and 10,00,000 0.01% Compulsorily Convertible Preference Shares of Rs. 10 each fully paid up in the Transferee Company would be held directly by the shareholders of BMG in the same proportion of their shareholding (in % terms) in BMG. Thereby the beneficial shareholding would remain unchanged and the interest of the shareholders of RIL will effectively remain unchanged and shareholders interest would not be prejudicially affected;
- (g) The number of shares in fraction shall be consolidated and/or round off such fractional entitlements into whole number of shares to nearest integer such that interest of the shareholders of RIL are not prejudicially affected.

4.3. It is universally recognized that the basis of recommendation is not an exact science and that determining the Share Exchange Ratio necessarily involves selecting an approach that is suitable for the purpose. The application of any particular approach depends upon various factors including nature of its business, overall objective of the Scheme and the purpose of recommendation.

5. SHARE EXCHANGE RATIO

5.1. In the ultimate analysis, recommendation will have to involve the exercise of judicious discretion and judgment taking into account all the relevant factors. There will always be several factors, e.g. present and prospective competition, yield on comparable securities and market sentiments, etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of a share. This concept is also recognized in judicial decisions. For example, Viscount Simon Bd in Gold Coast Selection Trust Ltd. vs. Humphrey reported in 30 TC 209 (House of Lords) and quoted with approval by the Supreme Court of India in the case reported in 176 ITR 417 as under:
'If the asset takes the form of fully paid shares, the valuation will take into account not only the terms of the agreement but a number of other factors, such as prospective yield, marketability, the general outlook for the type of business of the company which has allotted the shares, the result of a contemporary prospectus offering similar shares for subscription, the capital

CA Harsh C. Ruparelia
Registered Valuer – Securities or Financial Assets

position of the company, so forth. There may also be an element of value in the fact that the holding of the shares gives control of the company. If the asset is difficult to value, but is nevertheless of a money value, the best valuation possible must be made. Valuation is an art, not an exact science. Mathematical certainty is not demanded, nor indeed is it possible.'

- 5.2. The fair basis of Share Exchange Ratio under the Scheme would have to be determined after taking into consideration all the factors and approach mentioned hereinabove. It is however important to note that in doing so, I am not attempting to arrive at the absolute value per share of the Companies. Upon the Scheme becoming effective, shares held by BMG in RIL would be held directly by the shareholders of BMG, in the same proportion of their shareholding (in % terms) in BMG. Thereby, the beneficial shareholding of RIL would remain unchanged and the interest of the shareholders of RIL will effectively remain unchanged and shareholders interest would not be prejudicially affected, as a result of the Scheme. Hence, no relative valuation of the two entities is required to be undertaken to facilitate the determination of the Share Exchange Ratio.
- 5.3. Further, there would be no change in the aggregate promoters' shareholding in the Transferee Company and hence, shall not affect the interest of any of the shareholders of the Transferee Company for the reasons enlisted in Para 4 – Basis of Recommendation. Accordingly, valuation approaches as indicated in the format as prescribed under Para I(A)(4) of Annexure I of SEBI Circular no. CFD/DIL3/CIR/2017/21 dated March 10, 2017 have not been undertaken as they are not relevant with respect to the proposed Scheme. For the purpose of the current exercise, I have provided following weights to the valuation methodologies based on our basis of recommendation and other various factors relevant to the valuation exercise for recommendation of Equity Share Exchange Ratio and Preference Share Exchange Ratio:

Particulars	B M G Enterprises Limited		Rossell India Limited	
	Value per Share (INR)	Weights	Value per Share (INR)	Weights
Asset Approach	NA	NA	NA	NA
Market Approach	NA	NA	NA	NA
Income Approach	NA	NA	NA	NA
Relative Value per share	NA		NA	

CA Harsh C. Ruparelia
Registered Valuer – Securities or Financial Assets

NA = Not Adopted / Not Applicable, as provided in Para 4 – Basis of Recommendation

5.4. In the present facts and circumstances and based on the information and explanation provided to me, I believe that the following Share Exchange Ratio, after giving due consideration to the Management representations and the fact that upon Scheme becoming effective, 2,37,63,795 equity shares of Rs. 2 each fully paid up, representing about 64.76% of the total paid up share capital of the Transferee Company and 10,00,000 0.01% Compulsorily Convertible Preference Shares of Rs. 10 each fully paid up in the Transferee Company shall get cancelled and same no. of equity shares and preference shares will be issued to the equity shareholders of the Transferor company in the manner provided under the Scheme. Thereby the interest of the shareholders in RIL will effectively remain unchanged and shareholders interest would not be prejudicially affected. Further, the Scheme does not envisage dilution of the holding of any one or more of the shareholders as a result of the Scheme becoming effective, the Share Exchange Ratio as suggested by the Management of the Companies, would be fair and reasonable for the shareholders of BMG and RIL:

Particulars	Swap Ratio
For equity shareholders of B M G Enterprises Limited	2,37,63,795 fully paid-up equity shares of Rs 2 each of the Transferee Company shall be issued and allotted as fully paid up to the equity shareholders of the Transferor Company in proportion of their holding in the Transferor Company
For equity shareholders of B M G Enterprises Limited (with respect to preference shares held by BMG in RIL)	10,00,000, 0.01% Compulsorily Convertible Preference Shares of Rs. 10 each of the Transferee Company shall be issued and allotted as fully paid up to the equity shareholders of the Transferor Company in proportion of their holding in the Transferor Company

In the event that the New Equity shares to be issued result in fractional entitlement, the Board of director of the Transferee Company shall be empowered to consolidate and/or round off such fractional entitlements into whole number of New Equity shares to nearest integer. However, in no event, the number of New Equity shares to be allotted by the Transferee Company to the equity shareholders of the Transferor Company shall exceed the total number of equity shares held by the Transferor Company in the Transferee Company. Also, in no event, the number of New Preference shares to be allotted by the Transferee Company to the equity shareholders of the Transferor Company shall exceed the total number of preference shares held by the Transferor Company in the Transferee Company.
